Why Exhibit at TeachME Nov. 2009?

The TeachME Educational Conference 2009 is scheduled to be held in Dubai and Beirut.

With the world of education progressing and evolving at a rapid pace, you need a forum where leading education policy makers, operators, trainers, teachers, parents, and rival companies come under one roof.

TeachME 2009 Educational Exhibition will allow you, the exhibitor, to:

- Gain successful exposure to the educational sector in the Middle East
- Network with leading school operators in the region
- Receive serious inquiries on educational products and services
- Reach and promote your product to hundreds of potential customers
- Gain valuable knowledge of your clients and market needs

Audience

The TeachME November Conference targets public and private school principals, teachers, administrators, student-teachers and school operators from nursery all the way to high school. It is also directed at parents, tertiary education institutes and select decision makers in the industry. TeachME comes on the heels of its successful predecessors, the November 2007 conference "Tools for a Backpack" and January 2009 conference "TeachME 09", with more than 500 participants from the KSA, the UAE, Lebanon, Qatar, Oman and Syria attending both events.

About the Conference

Rearden Educational is adding inspiration to education. A robust lineup of speakers and trainers will present a wide range of compelling educational topics, talks and workshops in English, Arabic and French, for K-12 grade levels. In addition to these, there will be panels, debates, and topics on accreditation.

TeachME Nov. 2009 Theme: Change Takes Gears

The speed and capacity in which children think and absorb is getting alarmingly faster than that in which we can educate them. The challenge to keep up is harder than we think.

The aim of the conference is to address this crucial condition to the future of schooling and present viable, probable solutions to offer quality education.

Experts at the TeachME November 2009 conference will present talks and workshops in a range of subjects which are the different gears in the engine that drives the future of education.
